Readers vs. Subscribers.

The persons who subscribe and pay for our paper, comprise indeed but a very small portion of the community, yet we venture to say that nine out of ten reading then in our town and neighborhood, read it, regularly or occasionally. To these non-paying potrons we have a few words

Have you ever thought that while you are reading the paper at the expense of others, you are not acting altogether honorably ! If you never have, just lay down your borrowed paper which you are rending, and reflect a little now. You know that it is an advantage to your town and neighborhood (and of course to you) to have a newspaper published in it. You know this, we say; or if you don't, you ought to, and a little reflection will enable you to perceive it. It you see or hear of anything in another paper which you think would benefit yourself, your party. your friends, or your town, you are anxious that it should appear in the paper et home : or if a public matter comes up. which you may deem of importance to the place or yourself, you expect to find the paper pushing it forward: and if it does not, you are perhaps the first to complain, altho' you have always been sponging the reading of some neighbor's paper. and have never given a cent to sust in that which you expect to advance your interests. Now, just think a little-in this right ! Printers can not afford to " work for nothing and keep themselves," and yet you are practically asking them to do it. If you had no paper in your place, you would be first to feel the want of it, for you are enjoying the benefits resulting from it, without allowing your pocket to suffer in the least there by.

You may answer, "You needn't talk so saucy about it, for if you don't publish a paper here, some one else will." True enough, we admit; but that don't better your conduct in the least. The paper is now going on, and you are now spinging, that which others more thoughtful, or perhaps more honorable, are paying for.

" But I don't like the political course of your paper," you may say. No matter for that ; you read it, whether you like it or not; and it is your duty to support your local paper, even if it be not a perfect mirror, reflecting precisely your own political views. It is worth more than the subscription price, for the other matewhich it contains. \*

" But I can't afford it-Pin ton poer." Are you sure or mant Just think, now ; have you not over and over again, paid more than our subscription price for articles of much less value to you than a have, but if you have not, as soon as we get all to subscribe who should do so, we will send you a copy for nothing.

"But I am getting a city paper, and can't afford another." We suppose you reson in this way : " There's no use in my paying for The Aplatachian. Some of my neighbors take it, and I can borrow it from them, or pick it up in their stores or shops, and read it for nothing. It don't do any harm to read it after they have got it; so, I'll send for a city paper, and thus get reading two, while I pay for one. 1.2s almost throwing money away, to pay for The Apalachian, for I read it anyhow." This will all do very well for men who are determined to get all they can without regard to right-to reap where they have not sown-but for honorable men (and we do not wish to say that you are not such, although the circum-tances are strongly against you,) it is certainly very strange lack, and it you think a little on the sub ject, you will agree with us. We maintain that you should support a paper at home, first, and ulterwards take as many more as you may see proper.

We wish you to understand, however, that when we ask you to "support" or " sustain" us, we do not ask it as a gift of charity, for we consider the paper worth all that is asked for it. If we did'nt, we would'nt ask you to take it-

We have talked long enough to you, for the present, and hope you will reflect upon the subject and come to the wise conclusion that you will no longer be dependent upon others for that which you should have acursel!. Don't think, now, that we are Ainting at some person ; it is you we are speaking to-you, who are now reading this paper which somebody else has paid for. If you have a family, pay for the paper, and let them read it; if you have pot, take the paper at once, for you can't "We hereby promise for value received, to pay to the bearer hereof Ose Cent, on demand, at our Medicine Factory in the City of Brooklyn.

NY. Dated at Brooklyn. 7th April, 1848." spon others to pay for your reading.

We have taken rather much space for this solip. I, but as many of our subscri- the label signed as above. pers are much annoyed by this class of readers, we trust they will not object to our holding a " talk" with them occasionsily .- The Applachian.
